Assalamualaikum w.b.t. and greetings dear editor in chief,

We hope this email finds you well. We are glad that today is the last day of July which means that today will be the day that your esteemed journal *AkademiKA* will publish its first volume for this year.

In regards to that, we would like to inquire about the status of our paper; on whether or not our article will be included under this volume? This is because we are trying to figure out about its approximate date of publication.

We hope to hear from you about it soon. Thank you.

Warm wishes,
